### Tractor drivers (comedy, directed by Ivan Pyriev, 1939)

Tractor drivers. The golden fund of the Soviet cinema. The film that made the director Ivan Pyriev famous. The unpretentious story of a demobilized Far Eastern tanker Klim, who returned to his native Ukrainian collective farm, where his beloved Maryana lives - already a noble tractor driver of the region. She has many fans, the simple-minded Klim finds himself in a difficult situation...

This movie is What **Sovereign People** need to wake up and watch  
How many American movies were made to soften us up before War  
I see so many Loving peaceful Family orientated People Getting talk into  
accepting a war only for making a few richer and powerful

Take this power away from them and live in peace
